

fatigue, and pathological fatigue are well covered by the author. The chapters on diseases follow the usual treatment of these topics, being divided into the communicable and chronic diseases, followed by the environmental hazards.

The format of this book is somewhat different. The book and its bindings being 8½ x 8½ inches. Only one-half of each page is utilized for the text of the material with the remainder being either blank or with the side-headings taking up some of the space.

The index is adequate and the bibliography which follows each chapter is selective and good. The author has done a very good job of each summary which follows each chapter.

As an introductory text in health education this book would fill a need. For the Corrective Therapist, the information in the chapter on muscle function would serve as a basic review, or could be used to explain certain functions to a handicapped patient.

Richard H. Hagelin

Your Future in Occupational Therapy by Frances L. Shuff, O.T.R. (New York: Richards Rosen Press, Inc., 1964, 156 pp., \$2.95)

This publication was written by the author to assist high school and college students in their selection of a career. The

multi-faceted activities of the field of occupational therapy have been well presented by the author.

The position in the health profession occupied by the occupational therapist is the basis of the entire book. The author describes the work of the therapist in the different types of hospitals and the types of patients with whom she works.

Opportunities for service in the Armed Forces and the Public Health Service are explained to the student. An important section of this book is a self-evaluation test which would give a student an insight into his aptitude for this type of work.

An important chapter of this book is devoted to the professional organizations in the field of occupational therapy. It traces the growth of the National Society for the Promotion of Occupational Therapy to the American Occupational Therapy Association. The author has identified those schools in the United States which offer a curricula in occupational therapy and also organizations which afford financial aid to the student in occupational therapy.

This book is well worth while for those individuals working with guidance departments of public school systems and also for others who have the responsibility for assisting students select a life-long career.

Richard H. Hagelin

INDEX FOR VOLUME 18 (1964)

ABSTRACT

C

Corrective Therapy

Study Tells Benefits of Rehab. Programs for Psychiatric Patients (Wegmiller, D.) 2:54, Mar.

E

Exercise

Hygienic Exercises at Night (Tolkachev, E.) 3:82, May.

Influence of Sports Participation on Motor Reactions of Deaf School Children (Kostanyan, A.) 3:82, May.

P

Physiology

Effect of a Brief Contraction of Forearm Muscles on Forearm Blood Flow (Corcondilas, A., Koroxenidis, G., & Shepherd, J.) 4:111, July.

Local Muscle Endurance with Open and Occluded Intramuscular Circulation (Stant, K. & Holmes, R.) 2:54, Mar.

Relationship of Increased Breath-holding Diffusing Capacity to Ventilation in Exercise (Ross, J., Reinbot, R., Boxell, J. & King, Jr., L.) 2:53, Mar.

Soviet Studies on Nutrition and Higher Nervous Activity (Brozek, J.) 6:171, Nov.

The Character of the Restoration Processes in Repetitive Muscular Work of Maximum Intensity (Goschiridze, I.) 5:142, Sept.

S

Sports Medicine

Adrenals and Sport (Prokop, L.) 1:25, Jan.

Biochemistry of Muscular Contraction and Recovery (Morgaria, A.) 1:26, Jan.

Changes in the Height of the Long Arch in Footsteps Under the Impact of Loads in Sportsmen of Several Specialties (Mironova, A. & Gorboonova, P.) 5:141, Sept.

Meniscal Derangement in the Osteoarthritic Knee Joint (Sideman, S. & Siegel, I.) 1:26, Jan.

Sweat and Exercise (Kral, J., Zenisek, A. & Hais, I.) 1:25, Jan.

The Influence of Vibratory Massage on Muscular Work Ability (Fedorova, B., Karabonov, A. & Talishev, F.) 1:26, Jan.

Voluntary Tensing and Relaxing of Muscles in Youthful Sportsmen of Various Specializations (Comberdaze, K.) 1:26, Jan.

ARTICLE

C

Camera

Camera at the 1964 Conference, 5:128, Sept.

Corrective Therapy

A Report on the Corrective Therapy Rehabilitation Program at Camp American Legion (Root, L.) 2:49, Mar.

Corrective Therapy, Its Changing Roles (Davis, J.) 4:98, July.

Exercise Therapy, Its Evolution and Growth (Sanders, E.) 2:32, Mar.

Implementing the Professional Focus (Young, C.) 2:41, Mar.

Persistence as a Motivator (Jurcisin, G. & Howard, A.) 1:16, Jan.; Comments on Persistence as a Motivator (Dyer, G.) 5:142, Sept.; Reply to Comments on Persistence as a Motivator (Jurcisin, G. & Howard, A.) 5:143, Sept.

Present and Future Perspectives of Adapted Physical Education in Public Schools (Swisher, I.) 2:45, Mar.

Prospective for the Future Corrective Therapy (Grimm, Z.) 1:8, Jan.

The Quest for Excellence (Murphy, J.) 5:122, Sept.

The Role of the Corrective Therapist in The Rehabilitation of Spinal Cord Disabilities (Friedland, F.) 6:164, Nov.

The Use of Metal Forearm Crutches in the Therapeutic Pool (Burnine, H.) 1:22, Jan.

Courses

Correspondence Studies: University Level Courses Required for Certification, 3:76, May.

E

Exercise

Specific Progressive Resistive Exercise for Increasing Medial-Lateral Collateral Ligament Stability and the Use of the Knee Ligament Testing Instrument for Test-Retest Measurement (Klein, K.) 5:135, Sept.

The Golub Exercise for Dysmenorrhea (Golub, L., Christaldi, J. & Menduke, H.) 4:97, July.

P

Physical Education

Medical Evaluation for Physical Education (Osborne, Jr., M.) 3:60, May.

Present and Future Perspectives of Adapted Physical Education in Public Schools (Swisher, I.) 2:45, Mar.

Physical Fitness

A Physical Fitness Case Study of Joie Ray (Cureton, Jr., T.) 3:64, May.

Physical Fitness and Psychiatric Diagnosis (Rosenberg, D. & Rice, D.) 3:73, May.

The Important Components of Physical Fitness (Berger, R.) 5:119, Sept.

The Physical Fitness Requirements of the Older and Disabled Individual (Gerontinos, E.) 4:105, July.

Psychology

Developing Psychological Treatment with "Ancillary" Personnel (O'Connell, W.) 1:10, Jan.

Physical Fitness and Psychiatric Diagnosis (Rosenberg, D. & Rice, D.) 3:73, May.

Rehabilitation and Behavior: Psychotherapy in the Community (O'Connell, W.) 4:107, July.
